

Wasi Mahin

Financial Systems Assistant

Long Beach, CA | wasimahin@gmail.com | linkedin.com/in/wasi-mahin | github.com/wasimahin | wasimahin.com

SUMMARY

Financial Systems Assistant at Associated Students, Inc., Cal State Long Beach. I keep the books for ASI and the University Student Union and build the automation behind them: two Python tools in daily production inside Microsoft Dynamics 365 Business Central cut invoice entry ~96% and journal entry up to 95%. B.S. Management Information Systems & Accountancy, May 2027.

EXPERIENCE

Financial Systems Assistant — Associated Students, Inc., CSULB | Long Beach, CA | *Sep 2026 – Present*

- Cut invoice entry ~96% (3–5 minutes to under 10 seconds) and manual journal entry up to 95% by building and maintaining two Python automation tools that run daily inside Microsoft Dynamics 365 Business Central with no API integration.
- Cut reporting-pipeline processing time 70–80% by building AI-assisted extraction, validation and reporting workflows with Microsoft Copilot.
- Protect confidential financial data for ASI and USU by reviewing AI-supported tools for risk and implementing access controls, data-protection and internal-control safeguards.
- Keep the ASI and USU books audit-ready by preparing journal entries and account adjustments and supporting accounts payable, reconciliations, year-end close and budget development.

Lead Business Office Representative — Associated Students, Inc., CSULB | Long Beach, CA | *Feb 2026 – Sep 2026*

- Processed 50–100+ vendor invoices a week (up to 200 at peak) for 500+ campus organizations by owning the full accounts payable cycle for ASI and USU, from intake and GL coding to journal entry.
- Kept 100% data accuracy across 500+ accounts by running monthly and ad-hoc internal audits and preparing reconciliations and supporting schedules for the 2025–26 external year-end audit.
- Raised office efficiency 50% by redesigning workflows adopted team-wide and training 3 new hires with SOPs and scenario-based guides.

Vice President of Finance — Association for Information Systems, CSULB | Long Beach, CA | *May 2026 – Present*

- Fund weekly workshops, seminars and semester events for a 100+ member organization by managing a \$5,000+ operating budget plus external grant funding.
- Improve allocation and reporting transparency by analyzing spending data and aligning the budget with the executive board's growth goals.

Business Analyst Intern (Project Microsoft) — Association for Information Systems, CSULB | Long Beach, CA | *Sep 2025 – Nov 2025*

- Turned raw audience and performance data into executive-ready KPI dashboards for Microsoft presentations by building Power BI models (DAX) and Microsoft Fabric ETL pipelines.
- Shaped project strategy by running correlation analysis, market research, SWOT and cost-benefit studies, and co-delivered the business pitch to Microsoft representatives.

Business Office Representative — Associated Students, Inc., CSULB | Long Beach, CA | *Oct 2024 – Feb 2026*

- Cut check-processing time 80% by implementing an upgraded financial system.
- Reconciled financial statements for 20+ student organizations and co-developed the 2025–26 ASI and USU operating budgets, verifying entries across departments to stop downstream errors.
