

Wasi Mahin

Financial Systems Assistant

Long Beach, CA | wasimahin@gmail.com | linkedin.com/in/wasi-mahin | github.com/wasimahin | wasimahin.com

SUMMARY

Financial Systems Assistant in the Business Office of Associated Students, Inc. and the University Student Union, Cal State Long Beach, reporting to the Budget & Finance Manager. I build and maintain the office's AI agents and automated workflows, review them for security and internal controls, and support journal entries, accounts payable, reconciliations and audits. As Lead Business Office Representative I owned the accounts payable cycle and monthly internal audits (100% accuracy across 500+ accounts) and built the two Python tools running daily inside Microsoft Dynamics 365 Business Central (~96% and up to 95% less manual entry). B.S. Management Information Systems & Accountancy (GPA 3.78), expected May 2027.

EXPERIENCE

Financial Systems Assistant — Associated Students, Inc. & University Student Union, CSULB | Long Beach, CA | *Sep 2026 – Present*

- Build and maintain the Business Office's AI agents and automated accounting workflows — including the two Python tools running daily in Microsoft Dynamics 365 Business Central — monitoring accuracy, troubleshooting issues and documenting each process.
- Review AI-supported tools for risk and help implement access controls, data-protection and internal-control safeguards for confidential financial data.
- Prepare journal entries and account adjustments, and support accounts payable, reconciliations, audits, year-end close and budget development for the Budget & Finance Manager and Accounting team.

Lead Business Office Representative — Associated Students, Inc. & University Student Union, CSULB | Long Beach, CA | *Feb 2026 – Sep 2026*

- Built and deployed two Python automation tools that run daily inside Microsoft Dynamics 365 Business Central with no API integration: invoice entry cut ~96% (3–5 minutes to under 10 seconds) and manual journal entry cut up to 95%.
- Owned the full accounts payable cycle for ASI and USU — 50–100+ vendor invoices a week, up to 200 at peak, for 500+ campus organizations — and ran monthly internal audits at 100% data accuracy across 500+ accounts.
- Supported the 2025–26 external year-end audit with account reconciliations and supporting schedules, ran SQL-driven budget analysis, and cut reporting-pipeline time 70–80% with Microsoft Copilot automation.

Vice President of Finance — Association for Information Systems, CSULB | Long Beach, CA | *May 2026 – Present*

- Own the financial lifecycle of a 100+ member organization: a \$5,000+ operating budget plus external grant funding across weekly workshops, seminars and semester events.
- Analyze spending data to allocate funds and tighten tracking and reporting, aligning the budget with the executive board's growth goals.

Business Analyst Intern (Project Microsoft) — Association for Information Systems, CSULB | Long Beach, CA | *Sep 2025 – Nov 2025*

- Built Power BI dashboards (DAX, custom data models) and Microsoft Fabric ETL pipelines that turned raw audience and performance data into executive-ready KPIs for Microsoft presentations.
- Ran correlation analysis, market research, SWOT and cost-benefit studies that shaped project strategy, and co-delivered the business pitch to Microsoft representatives.

Business Office Representative — Associated Students, Inc., CSULB | Long Beach, CA | *Oct 2024 – Feb 2026*

- Cut check-processing time 80% by moving the office onto an upgraded financial system.
- Co-developed the 2025–26 ASI and USU operating budgets and reconciled financial statements for 20+ student organizations.

PROJECTS

- Snehin Check Request Helper** — Python RPA tool in daily production at ASI — github.com/wasimahin/snehin-check-request-helper
- Business Central Journal Entry Bot** — Python journal-entry automation in daily production — github.com/wasimahin/bc-journal-entry-bot
- “Is the American Dream Still Attainable?”** — Tableau economic analysis of income growth and regional inequality — 3rd place, AIS Annual Datathon 2026.
